

# MAGNESIUM ALLOY WHEELS *Line-up*

**Magnesium** is 30% lighter than aluminium, 60% lighter than titanium and 80% lighter than steel. This allows producing objects that are lighter for an equal volume or stronger for an equal weight.

- Specific weight : only 0.0017g/mm<sup>3</sup>
- Completely recyclable material
- Better heat exchange
- Clear powder coated inside of the wheel
- Tubeless valve included
- Available various backspace model
